

Tender Notice

Colchester Balefill Facility C&D Cell Construction

The Municipality of Colchester is requesting bids from qualified contractors to construct a Construction and Demolition Disposal Cell at the Colchester Balefill Facility in Kemptown, Nova Scotia.

Generally, the scope of work for the disposal cell construction includes:

- Soil and sand grading layer
- Geosynthetic Liner Installation (GCL) liner installation
- Granular drainage Leachate collection layer, collection pipes and collection sump
- Perimeter containment berm
- Connection berm to existing cells
- Stormwater runoff control
- Upgrades to current ditching with some sections to include geomembrane lining
- Erosion and sedimentation control
- Access road modifications

Tender documents and drawings can be requested from Jessica Rushton by email at jrushton@colchester.ca. Tender bids will only be accepted from contractors who have registered and obtained a set of tender documents and drawings from the Municipality of Colchester.
